2005 Street Rehabilitation – M L King Avenue and Hopple Street

WHAT/WHEN: As part of the City of Cincinnati's ongoing efforts to improve neighborhoods, crews of John R. Jurgensen Co. are currently making street improvements on Martin Luther King Drive from Woodside Avenue to Central Parkway, and on Hopple Street from Central Parkway to Henshaw Avenue.

The improvements include removing the existing asphalt surface and resurfacing the entire pavement, along with repairing and replacing existing curbs and concrete base.

To minimize the impact on traffic, crews will perform the work between 9:00 a.m. and 4:00 p.m. and 6:00 p.m. to 6:00 a.m.

The company should finish the work by September of this year.

This construction may cause some traffic delays. Motorists may wish to seek alternate routes to their destinations.
